#### "CHINA MAIL" CENSUS COMPETITION.

Hongkong, November 16 1909. 11424

A census of the population of Hongkong is to be taken on May 20th, and in order that our readers may test their skill in estimating the growth of the population since the last census the China Mail is promoting a competition under three heads, asking its subscribers to predict the numbers of-(1). The total civil population: (2). Chinese population: (3), European, and American population. We have, for the guidance of competitors, given the figures for the last two numberings. All competitors 'have to do is to cut out the coupons, fill in their estimate and forward them to our office. with the words "Consus Competition" in the top left-hand corner of the envelope. Competitors may send in as many coupons as they desire. A prize will be given for the most correct estimate under such head. In the case of a tie the estimate first opened will be adjudged the winner.

No. 1.-TOTAL CIVIL POPULATION OF MONGKONG.

I predict, that the total civil population of the Colony on May 20th, 1911, will be

Name .....

A.B.—The last complete census of the Colony was taken in 1901, when the total civil population was officially returned at 283,905. In 1906 a partial census was taken, being confined to the original Colony of Hongkong and that part of the New Territory which lies south of the Kowloon range of hills. This partial census showed a total civil population of 319,803, but it should be pointed out that the portion of the New Territory not included in this consus possessed a population of 85,011 in

No. 2.—TOTAL CHINESE POPULATION OF I predict that the total Chinese popula-

tion of the Colony on May 20th, 1911, will be

Address N.B.-In November, 1905, a partial ceusus was taken, this being confined to the original Colony of Hongkong and that part of the New Territory which lies south of the Kowloon range of hills. This partial census gave the total Chinese popu ation (land and floating) as 307,388, but it should be borne in mind that the portion of the New Territory not included in the partial consus pussessed a population of 85,011 in 1901, the year when the last full census was taken. The total Chinese population for the whole Colony in 1901 was 774,543.

No: 3-TOTAL EUROPEAN AND AMERICAN POPULATION OF HONGKONG. I prodict that the total European and American population of the Colony (resident and marcautile marine) on May 20th, 1911,

N.B.—The 1001 consus gave the

European and American population of the Celony as 6.431. At a consum taken in 1906 Hongkong, Geptembe 4, 1909 1124

In the inner city in Canton there is a stroot named San Kwai. Recently an empty house there was let to a man from Fukien. Nothing was known about him. Presently, about two days after he took possession, there was heard sounds of weeping in the house, and then the symbols of mourning were hung up outside the building. It was thought, therefore, that there had been a death on the premises. But the neighbours were somewhat suspicious of the incident, because no-one of the usual fraternity was requested to curry out the last rites. These suspicious grew, Two days after the first sounds of sorrow. SIMA, OCHL MUTABE, YO. the neighbours told the police of their SHINOTANL," HOJO, KANADA, suspicions. The house was entered and NAMAZUTA, SAYO, SHINNEW inside was found a nailed down coffin. The soldiers insisted on having the hid removed, but the owner of the house showed a very natural reluctance to comply with the demand. However, the soldiers insisted. When the lid of the coffin was removed, the casket was found to contain no mortal remains, but was nearly full of bombs There was a general movement on the part of the occupiers of the house to flee, when they saw the trend affairs were taking, but this was impossible. Two other men enter-

ed whilst the examination was going on and these as well as the other inmates

were arrested.

The surprise of the battle practice of last year, says the London and Ohina Express, is the fact that the much derided Australia Squadron took premier honours with a really creditable average, and some very fine shooting amongst the individual ships. The China Squadron had to content itself with third place, and the honour of having the second best ship at this practice, the flagship Minotaur. The practice made by the cruisers Endford, Monmouth, and Kent, whose average scores per gun were 131.4, 100.5, and 103.9 points respectively, was decidedly poor. The scores of the Astron and the Flore were 195 9 and 141-0 respectively. The China Squadron has a good deal to pull up in bottle practice, and no doubt it will rise to the occasion, and once more hold the blue ribbon the fleet both ways

It is reported that reveral Chinese from Houghoug have been arrested in Canbon and n inhoushook Most of however After examination and sufficient guarattees have been coming, bave been set at liberty. A paper before us states that two men stopped from the train, so Canton, which came in By the new line. As were minus their quedes, they were at arrested and submitted to a very severa examination. They could not give any very entistactory account of themselves beyond saying they were coming to Canton from Shek Lung. When asked if they any luggage, they pointed to a box. This, bowden was immediately dalmed another youth without a quence This made matters worse, and so forthwith the three were arrested and marched off to prison They will now await the leisure of the officials to undergo a regret thorough

It is likely that the present attitude of the officials towards those who have cut their queues will do more than many Edicts to stop the progress of the movement. Only a few days ago we noticed several young milig tary students in Canton, and three out of about twenty were without their queues, so that there seems to be no special opposition to the fashion when it is merely a choice of method of arranging the hair.

AMOY NOTES.

[From Our Oven Correspondent.]

THE CONTINUED DRO GHT. AVOY, May 9 For the third year in succession there has been no spring miny sesson in the Fukish province, the drought that set in during the autumn of 1908 still continues. In some districts there has been enough rain just to plant the young rice plants but acres of fields are drying up, and unless rain, and heavy rain, somes quickly there is every chance of this spring crop falling, as so much did last year. In other districts there has not been enough rain to enable the husbandmen to plough their fields. and, to, plant out any rice at all, so that never known so many fields, for instance, upon the island of Kulangso, which are

being left this year quite uncultivated for lack of water. And the question of water is an important one. The artesian well project is a good one, but, having encountered a very thick rock, it makes but slow progress. I be lieve they have only been able to bore about 130 feet, and are not yet through the rock. Meanwhile, many foreign residents are finding it very difficult to get water, and are having to pay fairly heavily, for it. Things are of course much worse for the poorer Chinese. The population of Kulangsu is increasing all the time, while the amount of water available gets less and

Tess -s very serious state of affairs. BUILDING ACTIVITY. The building of new houses goes on marrily. The English Presbyterian Girls School new building is nearing completion and ought to be ready for use in August or September. A let of new houses for Chinese are being built, most of them with upper floors, It is getting quite the fashion for the Chinese to build houses with

verandahs after foreign models. THE OURDELESS BRIGADE. The cult of the 'No Queue continues to grow, and large numbers of the boys in our schools have cut off their queues during the last month or so. I hear that the authorities have a good many spies about and are keeping a close watch upon th schools in Amoy and on Kulangau, no omitting the Christian institutions. would be a great pity if the Government were to get the idea that the natio bristians were mixed up with the Anti-

Ab the Lot Shim theatre, in the wester wobutte of Cuiton, of the archive of the thirteenth of the Chinese mouth Ithere was a dangerous riot and three men ware bad I hurt. The fus began between a watchman the door of the building and some others .. Presently stones and other missibe were thrown. This led to the three men having their heads out open | Boldiers then appeared on the moone and it was feared that there would be wired trouble for the building was full of people inte there were many woman and girls present When the rumpus began the first thought was for these, and attempts were made to got thum out and lead them safely away. This was not an easy task, however, for the mob would not let any one approach the doors. Presently a man who is greatly respected came upon the some, and, according to Chinese habits, began " to talk peace. " His words were! successful, and an opening was made for the rescuers through the mob. The women and girls were then released and taken to places of safety though the police would not allow them to enter the local station, fearing that this would lead to further trouble. By-and-by the mon was dispursed, In consequence of the suspicion felt, what threatened to be a big affair, ended

THE WATER SUPPLY QUESTION.

(To the Editor of the "China Man.) Sir-" Rambler's" water supply purvis is casily answored. The figures to which he refers, do not mean than Hongkong people are twice as clean in their habits as Kowloonites, but that they waste more water. In Hongkong the water is laid into Chinese howest so that a coolis turning a tab can obtain and waste much as he likes without any trouble. He vices the supply in the Chinese quarters is obtained from street term, and must be carried into the bouse. "A could naturally doos not waste so much when he has little trouble in procuring it as when he see no trouble Yours falthy Hy

Eight Bare Patches on Child's Head. Skin Raised, Crusted and Irritated. Afraid of Losing All Her Hair-

Cured After Using Box of Cuticura Ointment with Cuticura Soap.

"I am pleased to say my little girl's head is completely cured after using one box of Cuticura Cintment and also washing her head with Cuticura Soap. You would like ts know about the case, I am sure. ."It started first by her hair coming out In combinie, leaving a spot about the size of a shilling. The skin looked raised and crusted and instance has very much. Naturally became very anxious when I saw eight different bare patches on her head. I was afraid she was going to logs all her hair. I tried (wo well advervised Temedias and they did no good, so I took her to a skin hospital. The doctor told me it was ringworm and to keep her from school, which I did. I stiended the hospital with her for seven weeks. I used two large boxes of the cintment which they prescribed, on her head every week and she had to-wear a black calico cap. Her poor little face boxeme swellen and red wherever the cintment touched it.

One day I sent for a box of Cuticura Cintment. After thoroughly cleaning her had of all the old continent, I started in with the Cuticura. The second dressing with the Cuticura. The second dressing with it seemed to take the irritation away. and soon we saw an improvement. Before had quite finished the box of Cuticura Cintment, her head was quite clear and the hair growing ever the hald spots. Now her hair has grown becutiful and long, with nothhair has grown beautiful and long, with nothing, but the Cuticura Ointment and the Cuticura Scap, with which I wash it."

CORONATION DERBY.

Racing Men Of America Aspire To Win The Jamous English Classic.

The fact that the next English Derby, which is to be run on May 81, will godown in history as the Coronation Derby, makes this race an expecially desirable one to win, especially to an American owner, but the chances at the present writing look alim for any Yankse sportsman to annex the blue ribbon of the turf. In all probability the race will be won by an owner who has succeeded before, as Mr Leopold de Rothschild is the owner of Pietri, the present favourite for the race, and the fact that he has en aged Danny Maher to ride. is abundant evidence that he intends taking none the worst of it in the matter of riding skill. Undoubtedly many owners will take a chance this year, and with the improvement of some dolts from their 2 to 3 yearold form, the unexpected may happen and an outsider may drive home in front of "the field.

The fact that Maher is to ride Pietri shows that the colt has the best chance of all the entries in the opinion of the American jockey, as he had practically his pick of the mounts and chose the Rothschild cadidate in preference to all others. The St. Amant, who won for Mr. Roths child in 1894. One thing that is against Pictri is that he is a bad actor at the post Mossrs W. H. Potts and A. R. Lowe. his field. This occurred last year in the re-election. Gimerack stakes, for which event the British public had made him an odds-on choice; With Maher in the saddle he propped at the start and did not get going antil four or five lengths back of his field. Maher, gave him a patient ride, however, and he got up in the stretch-in plenty of time to win comfortably. In this race a big bay colt named King William finished second and it is this thoroughbred that is expected to give Pietri an argument in the Derhy. He is owned by George Lambton and will be ridden by Frank Wooten, Lut he will

can owner that is conceded a cliance in the race. His entry is a big lumbering onnamed colt by Persimmon out of Dame D'Or. Although he started six times as a 2-year old he only won one race and that from a rather poor field, but he ran well on several occasions when he was b sten that English experts expect him to make a respectable showing, in the Derby | posts, if he can lust the route. He will be grained by the American trainer, Jack Joyner, and in all probability this is the candidate on whom Americans will have to pin their hopes. Charles Carroll, another American owner, has an entry in the race, it being his intention to start a colt named Night Rider, but this thoroughlired, although a speedy sprinter, is conceded only N.Y.K. s.s. Tamba Maru on her way scross rom Shanghai says the Robe Herul-! s remote chance.

The French owners, M. Fdmond Blanc, who has made several previous upsuccessful attempts to win the Derby has a goo chance with a French colt of his own breedring named Lord Burgoyne, who swept the boards in France last season. As the colts that will compete this year do not seem to be of exceptional class, the Frenchman stands a grand chance to avenge Waterloo. The Derby was first run in 1780, and there has not been a break since. There are over 200 borses entered in this year's tace, and from one not mentioned in the foregoing the winner may come, as outsiders, including 100 to 1 shots, have been plentiful in the annals of the race, but this year seems to be the exception, and the winner will probably come from one of the

Mr Hannah, of course, approaches the questions raised in his book purely as scholar, and it is probably this fact, which leads him to certain conclusions which will not find acceptance in all quarters. His Construction since 1901, who was present view that Asia is only in a state of decay because of European interference is certainly a most debatable one, as also is the contention that in China a relaxation of Western pressure would bring automatic reform. These and other opinions advanced by Mr Hannah come rather as a surprise to the reader after the author's acknowledgements elsewhere of what Western influences have done for Japan and India. particularly. author's view, is for most purposes in the hands of six great Powers-England, America, Japan, Germany, Russia and France. Each of these, he says, has sufficient force to make its wishes respected by the others In Mr Hannah's opinion, the unrest that is permenting Eastern lands does no nocessarily imply any desire for mpid Westernisation, "but the East is beginning vaguely to perceive that only with Western methods can the Western Powers be met. He continues :- A changeless culture that satisfies its own people is not; how ever, so very likely to be hastily exchanged for young and unstable conditions that ensure universal discontent. For what Western people, one might almost ask whole Western individual, is satisfied with his present lot?" Here we might interpose that where there is self-satisfaction progress ceases to operate. he must make an effort to understand them, joining in their games, making himself familiar with their ideas, and, without unduly thrusting himself forward, seize every opportunity of making himself one of them. As to the opportunities which Oxford offers, very few Americans realize how many subjects are taught, and taught well. They know that Oxford is famous for the classics, but not that the Classical School, or "Greats," as it is called, includes not only Greek and Latin literature, but ancient history and philosophy; nor that the History School, though newer, is quite as good as the classical and quite as popular; nor that there is excellent instruction in countless other departments, including such unexpected subjects as lunguages. The range of subjects there. is wide, and each department is in itself elastic. The student is not bound by courses; he may develop his field in the direction of his tastes. Instruction is individual, not collective, and therefore much freer and more personal. The great value of Oxford education, especially to an American, depends, however, not so much on been released from gaol. the excellence or variety of instruction as on the attitude toward scholarship. 9.15 p.m.—'The Follies' at the Theatre Reyal. In England the relation between scholarship and later success is so obvious that no one questions Consequently it is looked upon as not only admirable, but normal, that men should try for honours; all kinds of-men-compete for scholarships and prizes. Scholars are not specialists, class apart. There is no contrast between student and athlete, "grind" and "sport." The man who works hard is not cut off from his fellows. but shares fully in the ordinary Land Sports, Sea Sports, a Children's Fete, activities and sympathies. For this reason the life of the research student is far more agreeable than at an American or a continental University. Another advantage of Oxford over the Universities of other countries is its close relation to public life. ## LIFE WITHOUT HEALTH IS LIVING DEATH. VETARZO BRAIN AND NERVE FOOD

This remarkable compound, the latest discovery of modern times, is without equal in all cases of defective nerve and brain power, whether induced by worry, overwork, dissipation, or other influences. Sleeplessness, palpitation, defective circulation, nervous dyspepsia, the or neuralgia, low spirits, mental and bodily prostration, want of confidence, general debility, premature decay or deficiency of the vital forces, loss of vitality, harassing dreams, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, backache, bearing down sensations, wasting diseases, consumption, night sweats, muddy, high-coloured water, &c., are all so many different phases of brain and nerve wreckage and exhaustion, the cause of by far the greater portion of the misery, ill-health, and despondency by which we are confronted on every hand, that can only be successfully combated by the use of this wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted nerves, arrests all weakening wasting discharges, restores the failing energies, and imparts new life and vigour to those who had so recently seemed played out, used up and valueless. Bottles Price 2s. 8d.

# WITHOUT PURE BLOOD HEALTH IS IMPOSSIBLE.

Never before was there snything like it, nor can its marvellous properties ever be equalled in all cases of poorness, impurity, or other imperfection of the blood from whatever cause arising. No somer is it imbibed into the system than it permeates and penetrates to the minutess capillaries, overcoming and expelling disease, wheresoever and in whatsoever form met with; removing all blotches, pimples, scurf, scurvy, acrofulous and glandular swellings, discolarations, roughness and unsightly patches, fig. Its effects are almost magical in the treatment of gout, rheumatism, sciatics, lumbago, pains and swellings of the joints, discharges, blood poison, eczema, lepra, paoriasis, bad legs, bad breasts, abscraces, ulcers, wounds, sores, goitre or Derbyshire neck, it improves the general health, and quickly removes long-standing bronchitis, asthma, and hacking, straining, spasmodic cough, too often the procursor of consumption. Bottles Price is, Sd.

6 Send atamped addressed envelope for free booklet, or P.O. 2/8 for trial bottle of either remedy, to THE VETARZO REMEDIES CO., GOSPEL OAK, LONDON. Unprincipled Vendors may try to sell you comething size for extra profit—do not accept it, but insist on having VETARZO. The genuine has the words "VETARZO REMEDIES" on Government Stamp. VETARZO REMEDIES ARE SOLD BY BOOTS CASH CHEMISTS.
